

Trius is New German Partner for Visionary Solutions

Visionary Solutions, Inc. appoints **Trius Pro-AV GmbH** as its new distributor in Germany.

For more than two decades, Trius has been a distributor of professional audio and video technologies in Germany, introducing a number of high-profile international firms to the region. The company covers the professional and installed audio and video, live sound, and music sectors with sales and support across the country.

Visionary Solutions' **4K-Over-IP solutions** have already garnered attention in applications from government and healthcare to enterprise and entertainment. The company's

PacketTV

and

PacketAV

products can be deployed on any existing IP network, making full cinema-quality UHD over standard Ethernet a reality.

"The German market is very focused on the adoption of UHD video in commercial applications,

in corporate teleconferencing, and even in live productions - pretty much everywhere video is being used," observes Hubert Dierselhuis, Trius MD. *[Shown in Photo.]*

"Visionary Solutions truly has some of the best and most innovative products for implementing 4K video, and we're excited to bring these groundbreaking technologies to the German market," he adds.

"We are excited to be working with the Trius team to bring our products to the German AV sector," adds Visionary Solutions COO Scott Freshman. "The demand for UHD is exceptionally strong throughout Germany and the GSA region, and we're thrilled to have found a strong and supportive partner."
